

# LES PLANES ROUTE

We recommend this route for a lovely bike ride through the **Parque Natural del Montgó**. It is a beautiful 18 km trip among pine trees and shrub land with several spectacular views of the **bahía de Xàbia**. As its name indicates, **Les Planes** zone is relatively flat, but until we reach it, we must ascend up to an altitude of 200 m in just 2 km. For those who do not wish to sweat so much, you can also begin the route from the **Àrea recreativa Les Planes** which is an ideal zone for strolls, very peaceful, surrounded by natural scenery which is always several degrees cooler than sea level.

## DESCRIPTION:

We depart from the **Port** and we ascend up to Hotel Costamar, until we reach the **Cuesta de San Antonio**. With shade and several sections with major slopes, which is best to travel on foot, we arrive at **Les Planes**, where we will visit the scenic viewpoint: **Mirador del Cap de Sant Antoni**. The route travels along a gravel track, between pine trees with views of the sea, we then cross the Dénia's road up to **Plana Justa**, where we will follow a circular route, from which we can enjoy priceless views. Finally, we return to **Les Planes** and **Els Molins**, and after visiting them, we will return by Cuesta de san Antonio, and finish the route at the **Port**.

### Departure and Arrival:

Final Paseo Puerto – Lonja.  
(End of Port Promenade-Fish Market)

**Distance:** 18'3 km.

11'5 km. (from Les Planes).

**Travel time:** 3 hr.

**Accumulated Ascent Level**

**Difference:** 288 m.

**Difficulty Level:** Medium-High /

Medium (from Les Planes)
